CBS ①

10:00 TSBD view, rifle tests, Introd (WK)
10:05 facts + general controversy re LHO + WR
Nichols WR, TJR, 9/24/64 88 WR
2 min Citizen 26 yr. E. Dallas at 6 A.M.
10:10 Montage continue Lovelady
Harris pict 7 in 10 Jolly pict 5 in 10
Lead = Continued focus Light Court comments
~~10:15~~ Did LHO own rifle?
Where when stated found ~ 4 to 6 pm.
Schiller = LHO & Rifle Norman said.
Condemnation ! - Yes he owned.
10:12 Robert George Wesley Hargis, Curtain rods
10:15 "Reasonable doubt, he did take rifle TSBD"
10:30 Evans - no downward motion
Brennan - "backward" Cut ~ 2 Film stops
motion back up
10:35 Conclu LHO in TSBD probably in window
Was LHO rifle found? Weitz - interview
10:40 Wood boy + carton Rifle found empty
bags, + mistake.
10:50 Seeing Hill Ruth / carton Nichols
Lt + Wood. Lovelady - Yes LHO rifle
10:32 - Best LHO rifle capability? from
5.5 mm?
10:55

CBS (1)

Owned rifle

No evidence delivered to LHO or in garage or in his possession at any time

Men in Window

Ennis, not asked describe
Brennan, did not look up per 2 films
LHO seen on 1st fl by Piper, Shelley, and a woman employee at 12:15 pm
Norman, did not testify re LHO guns
CBS omits Bonnie Ray Williams who looked on 6 fl.
Sgt Gerald (instead Luke Mooney) found shells
Weitzman — never shown C2766 rifle to ID.
CBS omits ID as known by Boone Wade & Fritz
Facts re Rigsby, Weitzman started + had 5 more hrs & can't get to rifle in 8 as did LHO, adding 4 to his 1.14 time
Mrs Randle, never mentioned tape tape
Why CBS not in the package name lengths — specifically test Frazier Randle & others, errors in estimating

Also, failed asks Frazier and ~~Kopte~~ Price on back seat his car, 24", not merely 50 feet away

CBS Technology Tests

2.3 seconds does not include aiming time

Yes. Letter replicates of conduct but different rifle (presumably no bolt or trigger defect or scope defect corresp ≅ C2766) CBS did not specify skill its 11 riflemen — presumably not "191" per LHO, 2 are state troopers ie presumably adept

Also CBS allowed indoor target practice before the tests — LHO no firing practice at any time ≅ rifle not accessible for 2 mos before 11/22

45% risk of rifle malfunction

Where LHO get ammo?

What ammo used by CBS?

What about ammo clips?

Did 11 test riflemen leave prints or not?

Camera Speed

Theoretical variations in speed very interesting but does CBS clarify. FBI determined @ 18.3 (vs normal 16) ? Conceded 24 fr per sec is possible on the camera :- Has it been eliminated ? If so, how ? (X)

Blurring ⟷ occurs at times other than added to those specified (check this) film in tests pings, Z film does not. Z could have been startled or excited by things other than shots ie when JFK comes clearly into his view etc.

If first shot missed & next 2 hit for total of 3, how CBS account for Tague cut & nick on curb ?
Last bullet mark in WW II ?

(X) Hargett 5H176 using Z camera filmed at 26 fr per sec in 5/24/64 reenactments
